

JOHN-ALPHONSE ELONGA

Candidate Architect

BAS Arch | BAS(Hons) | M.Arch (Prof)

Summary

My journey in architecture has been one of exploration and self-discovery. While I have honed my skills and learned from prestigious firms, I have come to realize that my true passion lies at the intersection of technology and innovative problem-solving. As an architect, I have cultivated a strong foundation in analytical thinking, and cross-functional collaboration, and developed a versatile skill set that extends beyond architecture. These skills are applicable to diverse industries, enabling me to excel and drive impactful solutions across different paths.
